

Hidden Trails Community Association, Inc.

2022 Annual Meeting Pre-Submitted Questions

**Submitted questions have been summarized to accommodate relative submissions. Answers provided in orange.*

1. Recommendation- let's add pavilions to the park so community has a place to host bbqs and birthday parties! Pavilions were not part of the original design plans for the community and would exceed the allotted budget at this stage in development of the community. This may be an expense the Association will consider after the Declarant has transitioned out of the community.
2. Are there plans for an early childhood playground? The parks are beautiful, but they are not made for early childhood kids. Can we add some early childhood swings? This will be taken under consideration.
3. More street lights? Street lights are determined by the County. The Association does not have jurisdiction over public streets. Residents are encouraged to contact the Transportation Department to make a request for consideration.
